

## MARKET REPORT

### Store Sheep Sale Friday 8<sup>th</sup> November 2019

Despite the deluge of rain experienced over the last 24 hours which had resulted in a number of road closures, a respectable entry was assembled to include the catalogued entry of 4012 sheep together with a number of later entries.

The weather had done nothing to dampen anyone's enthusiasm with a fantastic lamb trade from start to finish. All shapes and sizes would be substantially dearer than seen at earlier sales with lambs peaking at £75 and returning a more than respectable average of £60.

Stronger sorts regularly upwards of £70 with purchasers competing hard to secure lambs of all types and many more could have been sold to vendors advantage with a total clearance being easily achieved.

Texel x To £75 average 64.86
