

STORE LAMB SALE REPORT
FRIDAY 10th September 2021

Trade a little more selective for the catalogued entry of 4,545 lambs, but that said the average at £83.62 per head would be the same as the sale a fortnight ago and indeed £10 up on last year.

All types in keen demand from the short to long term lambs with purchasers again present from far and wide with a total clearance being easily achieved.
