

Store Lamb Sale
Friday 8th October 2021

A total of 4,909 sheep forward with a similarly strong trade as the last sale and an average of just over £80, with a number of Mule and horned lambs within the entry. Well-shaped continental lambs at a distinct premium, selling to a top of £109, but that said all types would be in keen demand with purchasers present from South and North Wales, Norfolk, and a number of lambs heading off into North Yorkshire.
