# FOREWORD

Bagshaws and Bletsoes have been favoured with instructions from Fences Farm LLP (The Robeson Family) to undertake a machinery and produce dispersal on the holding as all active farming is to come to an end.

Many will know that the famous Tyringham herd of Pedigree Jerseys was dispersed in late 2021 which leaves a range of John Deere Tractors, Merlo Telehandler, Machinery, Dairy Tied Sundries and Livestock Effects for genuine dispersal.

In addition to the machinery and sundry effects, there are large quantities of hay, straw and silage together with two clamps of grass and maize silage.

The Merlo Telehandler is a 2018 Model and has undertaken under 3,600 hours. The smaller of the John Deere Tractors which is a 6125M Model has a little used John Deere H340 Power Loader fitted (which recently has been uncoupled and sat on stands unused).

There is a wide range of items for sale with the most recent purchases being a well-kept Teagle Tomahawk 8500 Straw Bedder together with a 12 Tonne Warwick Tandem Axle Tipping Trailer which comes complete with Hydraulic Rear Door.

As detailed, there is a large range of produce for sale at this auction and loading arrangements together with long stop removal dates will be given at the time of sale.

All purchasers should attend and bid with confidence at this excellent genuine sale.
