# FOREWORD

This genuine dispersal sale arises as a result of a total reduction in farming activity at Ashencroft Farm as all the cattle have been sold from the holding and many locals will know the Late Neville John Gallimore passed away in 2020.

Many of the principal items on the farm have been owned from new including the Massey Ferguson tractors and Manitou Telehandler. Items have been carefully driven and have undertaken little work for their age.

In addition to the main farm items there are a large number of quality lots to be sold on behalf of various sundry vendors (including retirements) and purchasers should attend and bid with confidence at this very good mid-season sale.

## Health & Safety at Work Act 1974

It is expressly brought to the bidders attention that at the time of sale, items of plant, machinery and equipment may not necessarily comply with the requirements of the Health & Safety at Work Act 1974, and its' associated regulations, governing the use of plant, machinery, and equipment at work.

Whilst Bagshaws take all reasonable steps to ensure the integrity of sale items, or make bidders aware of any known defects, anyone purchasing an item must ensure it is safe, and complies with all relevant regulatory requirements, before it is used in a work environment.
