VENDORS FOREWORD

A family dairy farm by name and nature for the last three generations. The Oakes family at Birch Hall Farm, Lach Dennis, have been producing milk for upwards of 70 years, passing through the generations from grandfather, father and now to son, Wilf, and his wife, Linda. The difficult decision to sell this much-loved herd has unfortunately been brought about due to recent ill health.

The family run a flying herd of Holstein Friesians calving all year round. The cows are cubicle housed and barrier fed TMR through the winter months and, during the summer, they are grazed. In the parlour, the herd's diet is further supplemented with a concentrate.

The milk is currently supplied to Sainsbury's and has been for over fifteen years, forming part of the Sainsbury's Dairy Development Group. High welfare standards have been integral to all that has been achieved at Birch Hall. The farm has been completely TB free throughout the three generations. The cattle are regularly monitored with routine vaccinations carried out for BVD, Lepto, and IBR, and this also covers quarterly screening for Johne's. The herd fertility is managed by Genus RMS with all breeding done by a specialist technician, which is followed up with weekly veterinary visits. The cows are currently in calf to the farm's own Simmental stock bull, British Blue, and Genus ABS ABS Dimension (Aberdeen Angus)sion Aberdeen Angus.

Current annual quality figures stand at 7365kg 4.67% Butterfat, 3.35% Protein, a somatic cell count of 156.

Wilf, Linda, Lisa and Annabell would like to thank all of the businesses that they have worked alongside over the many years; individuals which many of whom have become lifelong friends. They would also like to give a special thanks to all members of staff throughout the years, and their family and friends, whose support across this time, and especially most recently, has been and forever will be most appreciated.
