FOREWORD

This most genuine dispersal sale of the entire milking herd of the Shieldhouse Herd of Holsteins and A-Shieldhouse Herd of Ayrshires on behalf of the Weston family results from Eric's impending knee operations. This is a unique opportunity to have the pick of both pedigree Holsteins and Ayrshires, the Weston's having run the two herds side by side for many years.

3 generations of the Weston family have milked cows at Shield House Farm for in excess of 100 years so the decision to cease milk production has not been taken lightly.

The sale comprises 99 Cows and Heifers In-milk and In-calf together with 11 In-calf Heifers and provides an opportunity for purchasers to buy from a herd that really does tick every box.

First and foremost is the consistent type that is on offer and it is this much desired trait that struck me immediately when going to inspect the herd. Despite the high yields being achieved these are good, square, well conditioned cows that display consistently good bags and feet.

Extremely youthful well over 80 are milking in their 1st-3rd lactations including 65 heifers and 2nd calvers.

Herd health has always been a top priority being free of Leptospirosis and IBR and vaccinated for BVD. 30 cow samples for Johnes are also carried out twice yearly. The herd has recently won the Herd Health competition and the Lowest cell count for Derbyshire NMR 2021, having also won it in previous years.

The herd is cubicle housed and milked via a herringbone parlour with management based on grass silage fed on a TMR basis with concentrates fed in the parlour. These cows are milking for fun, averaging 33.9kg daily and there are numerous individuals giving between 30-58kg. The annual average is running at a superb

10563kg 4.24%F 3.22%P cc69

This is a most genuine dispersal sale of a herd of cows that can really deliver it all.
Attendance and inspection can be thoroughly recommended on Tuesday 31st May.
Make that trip, you won't be disappointed.

GENERAL NOTES

Directions to Leek Market

From Leek Town Centre take the A520 Cheddleton Road. At the first set of traffic lights turn right into Junction Road. Proceed through the houses and the entrance to the Market lies on the left hand side just before the "Pride of the Moorlands" Public House.

The Market is clearly sign posted on the A53 Newcastle to Leek Road and the A520 Leek to Cheddleton Road.

Method of Sale

All cattle will be sold in the pound and settlement of all accounts shall be made in full immediately at the close of sale. The herd will be sold under Farm Sale Rules a copy of which can be obtained from the Auctioneers.

On-line Bidding

On-line bidding is available through the Leek Auctions platform. Please visit www.leekauctions.co.uk and follow the registration button on the on-line sales page. All prospective purchasers must register at least 24 hours prior to sale and should note that:-

Health Status

The herd passed its last TB test on the 11th April 2022 and is on 6 monthly tests.

The herd is Leptospirosis and IBR free and is BVD vaccinated.

The herd carries out a 30 cow Johnes sample test twice yearly.

Dry Cows

Dry Cows have been tubed with Ubrostar and Noroseal.

Order of Sale

The sale will commence **after** the Commercial Entry which starts at 11am.

VETS NOTE

I have been extremely fortunate to work with Eric and the Weston family at Shield House Farm since my arrival in Derbyshire in 2009 and have seen things grow and develop into the high-performing herd you see today. This has taken a great deal of hard work and attention to detail and it was great to see these efforts being rewarded recently with 1st price certificates in the 2021 NMR Herd Competition in both the Low Cell Count, and Health and Fertility categories.

The cows are cubicle housed on sand and milked through a low jar herringbone parlour with an NMR milk/cow/year figure of 10,600 Litres at an average of 3.2% protein, 4.2% butterfat and a mean somatic cell count of just 77. This exceptional performance is made all the more impressive when you consider the youthfulness of the herd, with 35% in first lactation meaning plenty of great young cows to be acquired.

Despite the milk, these are fertile cows, average conception rate is 51% and the calving interval is 380 days, meaning a good deal of the cows on offer will be back in calf, to sires carefully chosen by Eric to produce some more fantastic cows.

The herd has been closed for many years and has excellent health status, with no evidence of IBR, BVD, Leptospirosis, Neospora or Johnes disease. The cows are all BVD vaccinated with Bovela.

I would, of course be happy to discuss any aspect of herd health with prospective buyers should they have any questions.
