FOREWORD

The genuine dispersal sale at Hagg House Farm arises as a result of the passing of Mr Robert Byard in 2021. The Byard family are now winding up the old partnership and all the livestock has already been sold from the holding. There is a wide range of sundries and effects together with cattle equipment and various tractors which have run on the unit. The star of the show is undoubtedly the McHale C460 Trained Straw Chopper which has undertaken little work.

Purchasers should note that several Byard family members have included items within the sale and there is also a special entry from a Derbyshire farmer who has recently sold various dairy cattle.

Health & Safety at Work Act 1974

It is expressly brought to the bidders attention that at the time of sale, items of plant, machinery and equipment may not necessarily comply with the requirements of the Health & Safety at Work Act 1974, and its' associated regulations, governing the use of plant, machinery, and equipment at work.

Whilst Bagshaws take all reasonable steps to ensure the integrity of sale items, or make bidders aware of any known defects, anyone purchasing an item must ensure it is safe, and complies with all relevant regulatory requirements, before it is used in a work environment.
