## FOREWORD

This genuine sale at Manor Farm sees a wide range of well maintained equipment together with two Classic Massey Ferguson tractors and a smart John Deere for early season dispersal.

The Plant family have farmed Manor Farm since 1940 and many locals will know that all the stock has been sold off the farm with the final sheep leaving in late Autumn 2022.

There is to be a full farm reorganisation and several of the principle items in the sale have been owned from new. These include the Ifor Williams Tri-Axle Trailer, Bryce Suma Post Knocker, various trailers and the Kuhn Flail Topper.

Undoubtedly the star of the show is the **John Deere 6120M Tractor and Loader** which has undertaken under 3,000 hours work and was purchased from RVT second hand with little hours on the clock. Generally, all the equipment on the farm is well maintained and purchasers should attend and bid with confidence at this early season sale.

### Health & Safety at Work Act 1974

It is expressly brought to the bidders attention that at the time of sale, items of plant, machinery and equipment may not necessarily comply with the requirements of the Health & Safety at Work Act 1974, and its' associated regulations, governing the use of plant, machinery, and equipment at work.

Whilst Bagshaws take all reasonable steps to ensure the integrity of sale items, or make bidders aware of any known defects, anyone purchasing an item must ensure it is safe, and complies with all relevant regulatory requirements, before it is used in a work environment.
