**SPECIAL ENTRY**

This genuine reduction sale on behalf of Frank Carter of D N Carter & Co comprises 48 Holsteins, all of which are either heifers or second calvers and all have calved since January.

We first sold the herd back in October 2021 when Frank sadly lost his brother. All youngstock were retained and Frank has subsequently gone back into milk.

The herd then was bred around type and production and still is today continuing to use the Cogent computer breeding program with a view to producing a high type and high yielding yet not precious cow, that can also deliver high constituents. They currently rank 14<sup>th</sup> in the highest PLI rankings nationally for NMR.

Herd health has always been a top priority. The herd is BVD free, BVD vaccinated and tag and tested, vaccinated for IBR and screened regularly for Leptospirosis with no problem being shown. It is also screened every 3 months for Johnes.

The herd is cubicle housed and milked via a herringbone parlour with management based on maize and grass silage fed on a TMR basis with NO concentrates fed in the parlour. These cow's milk for fun and are currently averaging 30.5kg daily and maintaining, whilst on twice a day milking a tremendous annual average of:

**11579kg 4.45%F 3.46%P cc109**
