FOREWORD

This genuine dispersal results from Rob and Sarah's decision to cease dairy farming at Willow Grange Farm. The herd is cubicle housed and milked via a herringbone with management based on grass silage and blend with concentrates fed in the parlour. The herd is averaging approximately 7000kg with the latest bulk sample showing a quality of 4.17%F 3.08%P cc174. This is a genuine sale of cows that have not been pushed and are sure to go on and improve.

TB Tested: 02.01.23 (6 monthly Tests)
