FOREWORD

The exciting sale at Sealefields Farm arises as a result of Mr Michael Adey and his Family making the decision to sell their extensive collection after nearly 50 years of gathering some extremely genuine Classic and Vintage Tractors.

The stars of the show are undoubtedly the Massey Fergusen 1200 and County 1124. Perusal of the catalogue document will reveal that the vast majority of all the Classic and Vintage Tractors run and drive with some extremely good examples for genuine sale.

The Massey Bagger Combine was in fact used for a few swaths during 2022 and was seen running on inventory day.

In addition to the superb range of Tractors there is a vast range of spares and parts together with memorabilia and Vintage Engines which should be of interest to a wide variety of purchasers.

It should be noted that various friends and neighbours have entered Tractors and Equipment and attendance at Sealefields Farm for this large and extensive sale is thoroughly recommended.

Please note that online bidding will not be available for the early lots to allow speed of selling and ease of lotting but all the major Tractors from the family will be available to online bidders.

Health & Safety at Work Act 1974

It is expressly brought to the bidders attention that at the time of sale, items of plant, machinery and equipment may not necessarily comply with the requirements of the Health & Safety at Work Act 1974, and its' associated regulations, governing the use of plant, machinery, and equipment at work.

Whilst Bagshaws take all reasonable steps to ensure the integrity of sale items, or make bidders aware of any known defects, anyone purchasing an item must ensure it is safe, and complies with all relevant regulatory requirements, before it is used in a work environment.
