# FOREWORD

The genuine dispersal sale at Brook Farm arises as a result of Mr Jeff Barber retiring from the tenancy.

The Barber family have farmed on the holding since 1925 and in recent times there has been a large Arable operation together with Hereford suckler cows and followers, as the main enterprises of the holding.

All the cattle have been sold off the farm, and this leaves a substantial range of machinery and effects together with the two case tractors, for genuine retirement dispersal.

In addition, several local vendors have included items at this interesting late September sale.

## **Health & Safety at Work Act 1974**

It is expressly brought to the bidders attention that at the time of sale, items of plant, machinery and equipment may not necessarily comply with the requirements of the Health & Safety at Work Act 1974, and its' associated regulations, governing the use of plant, machinery, and equipment at work.

Whilst Bagshaws take all reasonable steps to ensure the integrity of sale items, or make bidders aware of any known defects, anyone purchasing an item must ensure it is safe, and complies with all relevant regulatory requirements, before it is used in a work environment.
