# FOREWORD

This very genuine Autumn dispersal sale on behalf of the Sigley Family arises as a result of the sale of the holding and many locals will know that all the cattle have already been sold.

The family have farmed on the holding for three generations with a very successful dairy enterprise and undertaken virtually all conservation and reseeded operations in house with an excellent range of machinery.

The majority of the kit has been owned from new and has been extremely well kept.

The family are now moving to the South West and relocating with their young family and this leaves an excellent range of equipment for genuine dispersal.

Undoubtedly the stars of the show are the 6125M and 6110M John Deeres which are both equipped with MXT410 power loaders with Mach Block Couplers. The latter John Deere being the 6110M was purchased in March 2023 and has just received its first John Deere dealer service in September 2023 and on cataloguing day was showing 98.8 hours.

In addition, the other tractors together with Toyota Hilux Invincible 4 Door Pick-up and the Forage Boxes are all well kept.

Purchasers should attend and bid with confidence at this genuine dispersal which also includes various items from local vendors of a mixed nature.

## **Health & Safety at Work Act 1974**

It is expressly brought to the bidders attention that at the time of sale, items of plant, machinery and equipment may not necessarily comply with the requirements of the Health & Safety at Work Act 1974, and its' associated regulations, governing the use of plant, machinery, and equipment at work.

Whilst Bagshaws take all reasonable steps to ensure the integrity of sale items, or make bidders aware of any known defects, anyone purchasing an item must ensure it is safe, and complies with all relevant regulatory requirements, before it is used in a work environment.
