

MACHINERY & DISPERSAL SALES

“First 2024 Sale – Resounding Success”

Friday 12th January – Ford Valley Farm, Eckington

The Bagshaw’s onsite sale team kicked off the year extremely early with their first sale on the 12th January on behalf of the Ward Family at Ford Valley, Marsh Lane, Eckington close to the M1.

The sale attracted National and Northern Irish interest as there were some superb New Holland Tractors included for the event, with the vendors having already sold Ford Valley Farm and everything for dispersal.

A very large crowd arrived onsite and in spite of the early January rain, car parking worked well.

The highlights of the sale were undoubtedly the virtually unused New Holland T6.180 4WD Tractors, one with a loader on and one with creep speed and 50k gear box. These two immaculate tractors topped the sale at £74,800 for the T6.180 4WD with creep speed gearbox and only 61.7 hours on the clock. Its stablemate complete with Power Loader and 50K gearbox had undertaken exactly 100.7 hours on sale day and achieved £72,000. Both tractors were purchased by farmers to go straight to work with livestock and mixed enterprises in Worcestershire and Derbyshire being the eventual purchasers.
