FOREWORD

This interesting and easy access sale arises as a result of three instructions close to Lichfield, and a large array of kit to sell on behalf of those vendors.

Some of the principal items in the sale include items from Andrew and Robert Moore who are continuing to update their fleet and have kindly volunteered to host the sale with their landlords at Chesterfield Farm. There are some excellent Bailey Trailers and larger kit in the sale and the tractors include six New Hollands which have undertaken virtually no PTO and/or rear linkage work and have principally been used for haulage/tanker duties.

The sale includes a genuine dispersal of livestock equipment from a Staffordshire Dairy unit from which all the cattle have already been sold, together with a most genuine small holders dispersal, which will be sold free of VAT, and obviously all these items have been removed to site for convenience of sale.

There are 23 vendors placing items in the sale several of whom are not registered for vat purposes. There is a wide range of tractors, machines together with implements and sundries from these vendors and with the sale site having excellent road access, attendance at this sale in late March will be of interest to many potential purchasers.

Health & Safety at Work Act 1974

It is expressly brought to the bidders attention that at the time of sale, items of plant, machinery and equipment may not necessarily comply with the requirements of the Health & Safety at Work Act 1974, and its' associated regulations, governing the use of plant, machinery, and equipment at work.
Whilst Bagshaws take all reasonable steps to ensure the integrity of sale items, or make bidders aware of any known defects, anyone purchasing an item must ensure it is safe, and complies with all relevant regulatory requirements before it is used in a work environment.
