FOREWORD

This genuine retirement sale arises as a result of the Royle Family relinquishing the tenancy of the farm after thirty one years on the holding.

Many locals will know that a highly successful dairy unit has been managed on the holding for decades and the cows were dispersed in May 2023.

There is an excellent range of equipment with virtually all the principal items owned from new. These machines include the Deutz 4WD Tractor, Two Quad Bikes, Bobcat Skid Steer Loader, Bateson Cattle Trailer and Marshall Vacuum Tanker all of which are in good order.

The Bobcat Skid Steer Loader has been used extensively for many tasks and has a wide array of attachments which will be sold after the machine itself.

In addition to the items from the farm, there is a range of items from other Sundry Vendors and purchasers should attend and bid with confidence at this excellent March sale.

Health & Safety at Work Act 1974

It is expressly brought to the bidders attention that at the time of sale, items of plant, machinery and equipment may not necessarily comply with the requirements of the Health & Safety at Work Act 1974, and its' associated regulations, governing the use of plant, machinery, and equipment at work.

Whilst Bagshaws take all reasonable steps to ensure the integrity of sale items, or make bidders aware of any known defects, anyone purchasing an item must ensure it is safe, and complies with all relevant regulatory requirements, before it is used in a work environment.
