Bakewell Market

Monday 7<sup>th</sup> October

Worrying times with the Bluetongue boundary now on the Nottinghamshire border and preventing a few regulars from coming to see us.

How long the current situation will prevail is impossible to say. The most recent changes came with no warning and immediate effect.

All we can do is keep up to date with Defra/APHA announcements. Any changes that directly affect Bakewell market will be broadcast on our website and facebook pages.

<https://defra.maps.arcgis.com/apps/webappviewer/index.html?id=514ec88edec74575958d860f0196d2ea>

If you have any questions about the Bluetongue zones, please speak to Alastair Sneddon on 07973 982441.

Whether as a result of or in spite of Bluetongue changes, the market was busy with 859 cattle and 1,878 sheep on offer.

The store and breeding cattle section was well supported with 495 head on offer.

Trade was better than last week with a full line up of buyers and cattle purchased from Bakewell able to travel without restriction. Steers sold to £1,900, heifers £1,780 and feeding bulls £810.

In the breeding section cows and calves topped at £2,000 with in calf cows to £1,780.

There were 122 finished cattle with one or two regular vendors caught the wrong side of the line and unable to attend.

Trade looked good with top figures 364p/kg and £2,635 per head.

The average for the 55 heifers was a hefty 293.0 pence.

Less OTM cattle forward with only 99 on offer. Top figures 269p and £2,243 per head. The average was a solid 185.0p.

A remarkable entry of 143 calves would be a record for recent times.

Trade was outstanding with bulls to £590 and heifers £430.

Fewer sheep about than last week with some vendor clearly locked down after buying breeding sheep.

The 1,241 lambs sold on a healthy trade with top figures 326p/kg and £177.64/head.

The SQQ average emerged at 278.8p a whisker dearer than last week.

The overall average was 281.5p and indication that heavier lambs are wanted.

637 cull sheep with ewes to £199 and the average rather better than last week at £101.88

## Know the signs

Bluetongue serotype 3 (BTV-3) is circulating on the eastern side of England. The Animal and Plant Health Agency (APHA) and Defra have declared bluetongue zones spanning several counties to help control further spread of the disease. You can find out more and check whether you are in a bluetongue zone by visiting [gov.uk/bluetongue](http://gov.uk/bluetongue).

You can play a part in helping to stop bluetongue spreading by checking your animals for clinical signs, only moving animals if essential.

### Clinical signs to look out for in cattle

- lethargy
- crusting and erosions around the nostrils and muzzle
- conjunctivitis and excessive tear staining
- redness of the mouth, eyes, nose
- reddening of the skin above the hoof and between the cleats
- nasal discharge
- reddening and erosions on the teats
- fever
- milk drop
- not eating
- abortion, foetal deformities and stillbirths

Adult cattle may be infectious for several weeks while showing little or no sign of disease. They are often the preferred host for biting midges (the vector of bluetongue virus).

### Clinical signs in calves

Calves can become infected with bluetongue virus before birth if the mother is infected while pregnant. Signs of infection include:

- calves born small, weak, deformed or blind
- death of calves within a few days of birth
- stillbirths

**(Up 2 pence on the week)**

They seem to want the cows less but the average is up again and at a time of year when they are normally in freefall. All the better cows comfortably over 210 pence with OTM clean to 269p for Messrs Mellor, Chinley. All the best cows to 242p for a good Limmy from Alan Maier, Brassington, who had another at £2140.
