FOREWORD

The large sale at St Stephens Hill Farm arises as a result of the Brown family exiting livestock farming due to ill health.

The large herd of grazing system cattle were originally established on the holding in 2002 with a successful and profitable enterprise undertaken since that date.

The dispersal includes some excellent items and undoubtedly the star of the show is the **Fendt 516 4WD c/w Loader and Front Linkage** which was purchased new onto the holding and has undertaken very little work.

Quite a large portion of the equipment has been purchased new including the Fendt detailed above, JCB Telehandler, Schaffer Mini Loading Shovel, Massey Ferguson 7719S, Ifor Williams Livestock Trailer and Locally Fabricated AJP Equipment.

Perusal of the catalogue will outline a range of livestock equipment, gates and troughs together with in situ Bulk Bins and Dari-Kool Bulk Milk Tanks and an excellent Galvanised Mobile Cattle Race.

A large sale with diverse lots and some of the principal machines having undertaken little work.

In addition to the equipment from the farm several local farmers have included items for auction.
