# FOREWORD

This genuine dispersal sale arises as a result of Mrs Helen Willison leaving the farm and many locals will know that the Willison family have been associated with New Farm for in excess of 100 years.

The late Peter Willison was a true Massey Ferguson man and grew very successful arable crops with an excellent herd of suckler cows producing smart beef bred steers and heifers which he finished and sold to maximum advantage.

Undoubtedly the stars of the show are Peter's Massey Ferguson 390 and 135 which were purchased new and in spite of their age have been carefully nurtured.

There are a wide range of spare parts, workshop sundries and kit and this section also includes specific Massey Ferguson and Nuffield related items.

A large amount of the equipment has been barn stored virtually all its life with the majority carefully used.

In addition to the arable and grassland items there is a range of livestock related equipment together with the diesel Freelander and a range of non-vat items.

The remaining Charolais Cross Suckler Cows together with their excellent Limousin Cross calves have recently been sold in Bakewell Market.

A really genuine dispersal sale on all counts and attendance at New Farm is thoroughly recommended.
