FORWARD

This genuine sale arises as a result of the passing of the Late Roger Key in 2025 and many locals will know that Roger farmed and contracted in the Somercotes area and later moved to Alfreton. Prior to moving to the farm at Newton Mr Key commenced collecting machinery from his lifetimes work including various David Browns and David Brown associated equipment, many of the items which he had known and used over several decades.

There is a vast range of items within the sale, and it should be noted that virtually all items will be sold free of vat.

The David Brown 770A featured in the sale was originally exported to Oslo and now resides at Alfreton and comes complete with mid mount mower.

Also included are various family items from the late Mr Keys sons and these will be subject to vat at standard rate.

With such a large range of lots available some of which will be fairly unique and collectable, attendance at this sale which is extremely close to the M1 is highly recommended.

GENERAL NOTES
