FOREWORD

This genuine dispersal sale at Foston Hall Farm arises as a result of the passing of Mr Bryan Renshaw and the contract farming of the unit on behalf of the Renshaw family.

There is an excellent range of equipment on the holding which has been carefully driven and well maintained and a large number of the machines on farm have been owned from new.

Undoubtedly the stars of the show are the two John Deere tractors and combine which have all been owner driven and show very low hours having been used on the unit since purchase.

The pair of Same tractors have undertaken little work for their age and show minimal tyre wear.

Perusal of the catalogue shows an excellent range of trailers together with cultivation equipment with several of the principal cultivation machines and cultivators having undertaken little work.

The Deutz Fahr Telehandler was purchased new in 2016 and has undertaken virtually no work having loaded lorries from the grain store and done virtually no other tasks.

With a range of new spares together with sundries and effects the sale at Foston Hall Farm represents an excellent opportunity to purchase low hour tractors and machines together with a full range of sundries and effects.

Potential purchasers should note that this is a hybrid sale and there will be online bidding available. The online items will not start prior to 12.30pm on sale day and prior inspection will be available on the day before the sale between 10am and 3.30pm.

In addition, there are various entered items from local vendors and attendance at the sale is thoroughly recommended.
