FOREWORD

This interesting sale arises as a result of the Brown Family trading as VB Fabrications auctioning all surplus kit to include Ball Hitch Trailers, Spares and Unused Dairy Items.

The star of the show is undoubtedly the Blue Diamond 32/32 Rapid Exit Milking Parlour which comes complete with Stainless Steel Framework and also includes the transport container for ease of movement throughout the UK.

The Wacker Neuson ET65 Excavator is a 2017 model having undertaken just over 3,000 hours this machine comes complete with 2021 Rototilt Head and three buckets.

All the kit has been well cared for and maintained and carefully used with the trailers owned from new and the Excavator having been on the holding for five years.

A major feature of the sale is the non-vat collectable and stoneware section which includes stainless milk buckets, stone troughs, round pig troughs, cast iron corner horse troughs, 17 gallon churns together with a large array of other collectables.

It should be noted that the majority of the small items in this sale will be sold free of VAT and the Fordson Power Major Tractor will also have no-vat charged.

As this is a hybrid catalogue purchasers should note that 501-535 lots will be available for online bidding via Marteye. The online items will not start selling prior to 12.30pm and prior inspection of the online lots will be available on the day before the sale before 10am and 3pm.

Attendance at this interesting sale is thoroughly recommended with specialist dairy engineering tied items suitable for dealer and farmer usage throughout the UK.
