“Pristine kit and tractors bring out the crowds for Derbyshire dispersal”- Mark Elliott

The retirement dispersal on behalf of John and Grace Gadsby at Flatts Farm, Darley Bridge near Matlock saw a pristine range of Ford and New Holland tractors together with a Manitou Telehandler and grassland equipment for genuine dispersal at the end of September. With interest from throughout the UK and Ireland there was pressure on the car park team as the potential purchases arrived in their masses.

Trade was extremely good from start to finish, including all the smaller items, livestock equipment and thereafter onto the larger kit.
